Five days training on 'Integrated Cotton Production Technology'

Five days training on 'Integrated Cotton Production Technology' to the batch of progressive farmers from Kuhi, Umred, Hingna and Bhivapur was successfully conducted at Krishi Vigyan Kendra, ICAR-CICR, Nagpur on 10-16th July, 2024. This training was organized under the leadership of Dr. Y. G. Prasad, Director, ICAR-CICR, Nagpur, and Dr. Ramakrushna, G.I., Sr. Scientist & Head, KVK, ICAR-CICR, Nagpur. Ambuja Foundation (NGO's), Nagpur arranged funding for these five days training program.

The programme covers advanced integrated cotton cultivation techniques to enhance productivity and sustainability. Day 1 focuses on soil health and preparation. Day 2 delves into pest and disease management using integrated methods. Day 3 emphasizes water management and efficient irrigation practices. Day 4 covers crop nutrition and the use of organic fertilizers. Day 5 concludes with marketing strategies and post-harvest

management. The training includes practical demonstrations and interactive sessions with experts to ensure farmers can implement these techniques effectively.

Two days Training on Organic/Natural Farming

Two days training on 'Organic/Natural Farming' to the 1st batch of progressive farmers from Kuhi, Umred and Bhivapur was successfully conducted at Krishi Vigyan Kendra, ICAR-CICR, Nagpur on 18-19th July, 2024. This training was organized under the leadership of Dr. Y. G. Prasad, Director, ICAR-CICR, Nagpur, and Dr. Ramakrushna, G.I., Sr. Scientist & Head, KVK, ICAR-CICR, Nagpur. Under PKVY program, Project Director, ATMA, Nagpur arranged funding for this two days training program.

A two-day programme on organic and natural farming covers the basics and advanced techniques. Day 1 focuses on soil health, natural pest management, and composting, including a field visit. Day 2 delves into crop rotation, water management, and organic certification, ending with marketing strategies and an interactive Q&A session. The programme aims to equip farmers with essential skills for successful organic farming.
